Dr. Shen

Dear Dr. Shen:

Our office has been using the Computer Enhanced EKG System (3DMP) for approximately 6 months. Over that period of time we have found this to be clinically useful. The results of this test seem to correlate with what we would expect clinically based upon the patient's history.

We, therefore, are in support of your endeavors with this diagnostic tool.

Sincerely,

/jmt

A handwritten signature in black ink, appearing to be 'John M. T...' with a stylized flourish at the end.
